

VEHICLE APPRAISAL APP

Having extensive experience of managing dealership technology, our vehicle appraisal application streamlines the process of accurate valuation.

The only way to successfully design and develop a successful application for the motor industry is to understand how it must integrate seamlessly with the back end systems and be fully accessible to those that need to utilise it instantly.

Our Vehicle appraisal app is simple, clear and satisfies all the above. A clean interface can be branded with your logo. The app delivers everything needed to provide vital information with which to make an informed decision. The appraisal app streamlines a complex set of tasks.

Providing an efficient & accurate process for managing part exchange & used car purchases. With data sent to the appraisal portal for managerial oversight, it provides a secure & reduced risk environment.

Intuitive

The appraisal application has been designed to be intuitive and clear. Inputting data is simple and straightforward. The ability to collate multimedia data means a clear record of the vehicle is then accessible to the dealership.

Accurate

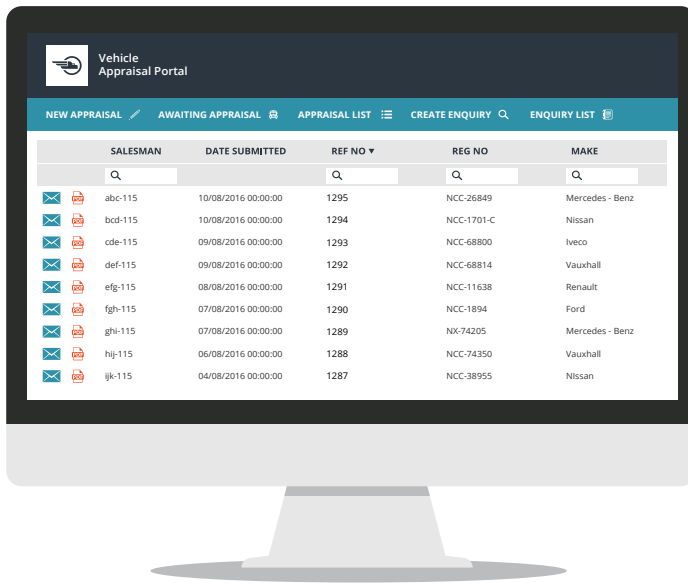

Nothing is left to chance. In addition to clear, detailed written records, you will also have multi-aspect photographs, editable diagrams of the vehicle for items that may not be apparent on the pictures and client signature.

Flexible

The appraisal application is designed to save time and costs. Dealership logo can be added for the personal touch. Fields can be programmed to be mandatory. End result is a pdf document which can be viewed or emailed.

Online Web Portal

Clear, concise & intuitive. Text, diagrams, photographs, signatures & video are all accessible. A PDF document presents data & can be emailed as necessary to relevant parties. Easily navigated, facts are clearly displayed. Notes can be added following reappraisals.

Return on Investment

The online portal streamlines the process of collating appraisals & related information to minimise error or risk thus providing a return on initial investment quickly. Allowing well informed decisions to be made with confidence.

Accessibility

The Web portal has been Designed to be accessible 24 hours a day if necessary for busy sales teams who work in dealerships open around the clock. Sales team to Dealer Principle, data is shared quickly and effectively.

Efficiency

With a simple mouse click the Portal can display multiple assessments ready to view for comparison and decision making. With all fields of information clearly presented, the portal becomes a valuable time saving asset.

Accountability

The Portal allows performance Management as each vehicle appraisal is fully assigned to a named sales representative dated and signed. The defined process brings together sales person & client for accurate, true condition value.

Defined Process

Nothing is left to chance as The Portal displays information resulting from a clear defined process. All essential information can be viewed via the portal. Designed to save time and reduce potentially expensive mistakes.

Accuracy

The portal allows the reality of accurate data collection, presentation including full notes graphics and if available video footage. Accurate decisions can be made utilising real time factual, checked, vital information.

“This has definitely brought in more business as it is an efficient streamlined process not only for us but also for the customer who is waiting for a decision”
